Material Certification of Compliance

All B&B Manufacturing parts are RoHS compliant (RoHS 2 2011/65/EU and RoHS 3 2015/863) with the exception of aluminum parts that have gold anodize and a few non-catalog parts that have customer specified non-compliant plating requirements. If you are purchasing aluminum parts with gold anodize and need RoHS compliance, please notify us before placing your order.

Management Contact:	Sales Manager
Main RoHS Contact:	Quality Control Manager
RoHS Status:	Compliant, with the exception of parts with gold anodize and customer specified parts that require non-compliant plating.
Part Compliance Date:	Inception
Plan to Trace Compliance:	Labeled batch code
Plan to Prove Compliance:	Material Certification upon Request

General Comments:

- B&B issues its blanket RoHS certification free of charge. Part number specific auto generated certificates are also provided free of charge via our website. If additional specific certification is needed, it will be provided for a fee. Parts will only be certified under B&B part numbers.
- Material certification for previously shipped items may not be available.
- Raw material and subsequent processes do not exceed RoHS directed limits for restricted materials:
 - .35% Lead (steel) (exemption 6 – lead as an alloying element)
 - .4% Lead (aluminum) (exemption 6 – lead as an alloying element)
 - .1% mercury
 - .1% hexavalent chromium
 - .1% Flame Retardants (PBB & PBDE)
 - .01% Cadmium
 - .1% phthalates (DEHP, BBP, DBP, DIBP)
- B&B validates its suppliers for RoHS compliance annually.

This certification is effective from January 1, 2026 through December 31, 2026.
